

Growth Group Notes

Jan-April 2016

From January to April 2016 we're going to be using 'Fruitfulness on the Frontline' - a course published by LICC, written by Mark Greene.

The course is designed to help us see how God is at work in our day-to-day lives and to join in with his kingdom work – living as followers of Jesus throughout the week.

Each Growth Group will be given a course DVD. The Growth Group notes ('discussion guide') are available to download at: <http://www.licc.org.uk/splash/index.html#resources> The notes are integrated with the DVD and explain which bits to use and when. If your group prefers not to use the DVD, there should still be enough material in the notes to provide the basis for a session.

You'll find extra resources on the same webpage above, including ideas for preachers, prayer guides etc. Sunday teaching will be on the same topics, roughly in sync with Growth Group meetings, along with some extra related material.

We have also bought some copies of the book that the series is based on 'Fruitfulness on the Frontline'. These will be available in church on a first come, first served basis for £5 each. Extra copies can be bought from the LICC website or Eden, Amazon etc. The book is definitely recommended for those who want to explore the subject in more depth and have a lasting resource.

I hope you find the material inspiring and practically helpful. As always, feedback is welcome.
